About Me

Full-Stack Web Developer and Frappe/ERPNext Developer with experience building high-performance web applications, scalable SaaS platforms, and custom ERPNext/Frappe solutions. Skilled in React.js, Next.js, Redux, Tailwind CSS, Python/Django, Node.js/Express.js, RESTful APIs, and databases including PostgreSQL, MySQL, MongoDB, and SQL. Experienced in translating Figma designs into responsive interfaces, communicating directly with clients, gathering requirements, and delivering tailored features through custom apps.

EDUCATION

– **Bachelors in software engineering** **Sep 2022- June 2026**
Bahria University Karachi

EXPERIENCE

- **Quantaflix** **Jan 2024 - June 2025**
Job Role: Full-Stack Web Developer

– Spearheaded full-stack development of dynamic, responsive web applications using **React.js**, **Next.js**, **Nodejs, Express, JavaScript**, **HTML**, and **CSS**.
– Optimized application performance by integrating RESTful APIs and managing scalable **MySQL** database operations.
– Played a pivotal role in building proprietary products, including the company's SaaS platform.
– Mentored junior developers, fostering team growth through code reviews and the promotion of development best practices.

- **Abidi Solutions** **April 2025 – July 2025**
Job Role: Frontend Developer

– Designed user-centric, interactive web interfaces in Figma, translating complex prototypes into pixel-perfect, responsive applications
– Developed scalable **React and Next.js** applications with **Tailwind CSS**, using **Redux** for efficient state management.
– Executed robust API integrations to ensure seamless, real-time data communication between the frontend and backend systems.
– Collaborated with cross-functional teams in an Agile environment to deliver multiple successful projects.

- **TRPL Solutions** **Feb 2026 - Present**
Job Role: Full Stack Engineer / Frappe ERPNext Developer

- Develop and customize ERPNext/Frappe applications through custom apps that automate and enhance client business workflows.
- Communicate directly with clients to gather requirements, clarify business processes, and convert feature requests into functional technical specifications.
- Build high-performance frontend components in Next.js, React and reliable backend systems using Python and the Frappe Framework.

TECHNICAL SKILLS AND INTERESTS

- **ERP & Business Apps:** Frappe Framework, ERPNext, Custom App Development, Workflow Automation, Requirement Analysis, Client Communication
- **Frontend:** Next.js (App Router), React.js, JavaScript (ES6+), Redux, Context API, Tailwind CSS, HTML, CSS
- **Backend:** Python, Django, Node.js, Express.js, RESTful APIs
- **Databases:** PostgreSQL, MySQL, SQL, MongoDB
- **Design & CMS:** Figma, WordPress, UI/UX Design Principles
- **Tools & Methodologies:** Git, Agile
